- (e) the date on which the authorisation was issued;
- (f) the country of destination (if required by the Department); and
- (g) the proposed name of the variety of the seed potatoes.

3. No authorisation shall be issued by an authorised officer unless he is satisfied that—

- (a) the seed potatoes are of a variety for which an application has been made under regulation 4(1)(a) of the Seeds (National Lists of Varieties) Regulations 2001 for acceptance of the variety concerned on to a National List and which application has not been withdrawn or finally determined;

- (b) the land on which the seed potatoes are growing or were grown is not land which is demarcated under Schedule 14 to the Plant Health Order (Northern Ireland) 2006(26) as contaminated with Wart Disease (*Synchytrium endobioticum* (Schilb.) Perc.);

4. Notwithstanding an authorisation, the Department may prohibit the use of the variety in all or in part of its territory or lay down appropriate conditions for cultivating the variety (where it has valid reasons for considering that the variety presents a risk for human health or the environment) in accordance with the conditions of Commission Decision 2004/842 and Council Directive 2002/56.

5. The Department may check maintenance of the variety. Where maintenance takes place in a member State of the EU other than the authorising member State, the Department shall assist its counterpart(s) administratively regarding the necessary checks.

6. The Department may accept maintenance in a third country, provided that the checks on practices for the maintenance afford the same assurances as those carried out in Northern Ireland or comply with Directive 2002/53.

7. The Department shall notify other member States and the EU Commission of the following
